SIDE 1

SIDE 2

Furniture Grade Radiata Pine is dried in climate-controlled chambers under strict quality controls. The high visual quality and ease of handling and painting make it ideal for furniture and other industrial processes. The grade contains clear lumber with length sections greater than or equal to 150 mm, providing a yield of clear lumber greater than or equal to 55%.

- Does not accept blue stain, mold, and pith.
- Average moisture content: 10%, with a maximum of 16%.
- FSC® certified product.

- Rustic: Thickness 24 and 37 mm.
